

GLOBAL 6K FOR WATER

*ONE RACE,
ONE CAUSE,
ALL NATIONS*

Saturday, May 6, 2017 @ 9:30 AM

This Spring, change a life. Join thousands of advocates around the world to help end the water crisis.

The lack of clean water is the #1 PREVENTABLE cause of death in the world. Because of water related diseases, on average 20% of the children in Africa will die before their 5th birthday and in some remote villages 50% will die. You can be part of the solution and save lives.

In celebration of World Water Day, join others in the Jackson area and run, walk, or be a volunteer in the World Vision Global 6K for Water at Western High School on Saturday May 6th at 9:30 AM.

The Western Walks for Water will start and finish at Western High School, 1400 S. Dearing Road in Parma, Michigan. Anyone can participate by registering online with the link below and joining our Western Walks for Water Team. After registering, you will receive a Global 6K for water T-shirt and a race bib like the one shown below.

The race bib that each participant wears as you run, walk, or volunteer will display the photo, name, and village of the child who will receive clean, life-changing water because you care enough to participate.

****Participants 15 years of age or younger register for half price****

To Register or get more information, go to:
